ELECTION RESTRICTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-22, drawn to a method of coating a porous hydrophobic polymer with a hemocompatible coating, classified in class 427, subclass 2.1+.
 - II. Claims 23-25, drawn to a hemocompatible polymer, classified in class 424, subclass 400+.
 - III. Claims 26-28, drawn to a medical device (specifically a stent / stent cover), classified in class 623, subclass 1.39.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are related as process of making, product by process, and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

In the instant case the product as claimed can be made by another and materially different process. The porous hydrophobic polymer need not be coated by dip coating. A molding process, spot coating, or spray coating are all equivalent methods that can be used to make the desired product.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Cameron Kerrigan on May 20, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1772

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian P. Egan whose telephone number is 703-305-3144. The examiner can normally be reached on M-F, 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Y. Pyon can be reached on 703-308-4251.
